Amend claim 1 as follows:

1. (Once Amended) A cable including a plurality of twisted pairs of conductors in a dense matrix-like form defining thereof horizontal rows and oblique columns with each other in a rectangular coordinate system wherein the twisted pairs in the same row have the same twist direction while [have] having opposite twist directions with those in the two neighboring rows aside, and wherein for each row there is a ninety degrees phase shift between every adjacent two pairs and for each column there is a non-ninety degrees phase shift between every adjacent two pairs.

4. Amend the specification as follows:

On page 7, paragraph 26, line 1, replace the terms "Fig. 7B", with the terms –Fig. 7C.

Allowable Subject Matter

6. Claims 1-2 are allowed.
7. The following is an examiner's statement of reasons for allowance: This invention deals with a cable including a plurality of twisted pairs of conductors in a dense matrix-like form defining thereof horizontal rows and oblique columns with each other in a rectangular coordinate system wherein the twisted pairs in the same row have the same twist direction while having opposite twist directions with those in the two neighboring rows aside, and wherein for each row there is a ninety degrees phase shift between every adjacent two pairs and for each column there is a non-ninety degrees phase shift between every adjacent two pairs. The above stated claim limitations is not taught or suggested by the prior art of record

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

et al disclose the adjacent two twisted pairs of each row having an ninety degrees phase shift and every adjacent two adjacent twisted pairs of each column to have a non-ninety degrees phase shift, is persuasive and therefore the claims have been allowed.
